

FIREPROOFING

Superior Insulation is fully certified and trained to handle all your Fire Proofing needs.

INFO.SUPERIOR-INSULATION.COM/FIREPROOFING

FIREPROOFING YOUR FACILITY

Regardless of the size and scale of your construction project, Superior Industrial Insulation is ready to deliver your fireproofing needs. Certified Fireproofing Experts and customized fireproofing programs are created for each project to best meet the needs of each client and property. Our intumescent, cementitious and mineral fiber products can be applied to provide the ratings required by code for expansions, or can repair areas where fireproofing may have fallen off.

SETTING INDUSTRY STANDARDS

Superior Industrial Insulation is proud to provide third party inspections, project management, project supervision, maintenance for existing installations and shop/field applications.

We are a National Fireproofing Contractor Associations Certified Contractor for both Sprayed Fire-Resistive Materials (SFRM) and Intumescent Fire-Resistive Materials (IFRM).

COMMON FIREPROOFING APPLICATIONS:

- High Rise Building Construction
- Healthcare Construction
- Gas and Oil Industries
- Industrial Facilities
- Power and Lighting Industries

SPECIALTY FIREPROOFING APPLICATIONS:

- Tank/Vessel Legs
- Decking
- Structural Steel
 - Beams, Columns, Trusses
- Wood
- Bar Joists
- Walls

We specialize in finding cost efficient solutions to challenging scenarios.

SERVICE AND DEPENDABILITY SINCE 1980

PROFICIENT. ACCOUNTABLE. SUPERIOR.

With more than 12,500 completed jobs, and a wealth of experienced professionals on staff, Superior Industrial Insulation is proud to offer these additional services.

COMMERCIAL INSULATION

- + Piping Insulation
- + Duct Insulation
- + Equipment Insulation
- + Custom Fit Removable Covers
- + Specialize in Unique Installations

OIL & GAS INSULATION

- + Experienced Crews
- + Accelerated Schedule Experts
- + Excellent Safety Record
- + 24 Hour Mobilization
- + Bondable
- + Fabrication and Installation of Removable Blankets

INDUSTRIAL INSULATION

- + Comprehensive Energy Audits
- + Power Piping Systems
- + Equipment Insulation
- + Precipitators
- + Steam Turbines
- + Insulated Tank Panels
- + Dust Collectors
- + MSHA™ Certified Contractor
- + Sheetmetal Insulation and Lagging

FIREPROOFING

Specialty Applications include:

- + Tank and Vessel Legs
- + Structural Steel
- + - Beams, Columns, Trusses
- + Decking
- + Wood
- + Bar Joists
- + Intumescent Applications
- + Cementitious Applications
- + Board Applications
- + Specializing in Unique Installations

CRYOGENIC INSULATION

- + Ammonia Gas Piping Insulation
- + Low Temp. Vessels & Equipment
- + Shutdown Work
- + Experienced Crews
- + Highest Quality Installations
- + Scheduling Experts

FIRESTOPPING

- + NFPA® Certified Fire Inspector II on Staff
- + Certified Firestop Instructors
- + CEU Credits for Training Available
- + Certified Installer for All Major Manufacturers
- + Engineer on Staff
- + Extensive Quality Control Program
- + Complete Cataloging of Penetrations into our Copywritten Database Program for Documentation
